## **STUDY DESCRIPTION**

**SADA 0124**

**TITLE:** Langebaan North: Community profile; 1998

**PRINCIPAL INVESTIGATOR:** Datadesk: Department of Sociology, Stellenbosch University

**DEPOSITOR:** Datadesk

**KEYWORDS:** Langebaan; conditions; economic conditions; housing; agricultural productivity.

**SUMMARY:** The principal aim of this study is to make available socio-economic characteristics of residents of Suurbraak to all interest groups concerned. The questionnaire consists of four sections. The first section relates to the socio-economic characteristics of all residents of each residential unit involved in the test sample and is presented in the first section of the report. In the second section of the questionnaire respondents report on land and home ownership, type of housing, number and nature of rooms and facilities in the residence, and room density. Section three contains questions on facilities and services in the community and on development priorities for the town. Section four deals with the utilisation of land and agricultural activities in Suurbraak.

**IMPORTANT VARIABLES:** Age, gender, levels of literacy and skill; income, occupation, housing situations, land rights, agricultural interests, community needs, membership of community organization, access to education facilities, health services and transport.
